The Smart Phone For Your Business.™

Sound like a big business. At a small business price.

Ooma Office blends the ease of do-it-yourself installation with the power of cloud computing, at an affordable price. You get all the features you'd expect from a business class phone system. Even better, Ooma Office has plenty of room to grow as your business expands.

Absolutely everything you'd ever need in a business phone system.¹

Big business features

Virtual receptionist, extension dialing, conferencing, and much more.

Music-on-Hold

Keep your customers on the phone with entertaining music and promotions.

Keep your phone number

Or pick a new number in almost any area code for free.

Use existing phones

No special phones or equipment needed.

Grows with your business

Supports up to 20 users with purchase of additional hardware.²

Easy setup

No new wiring to deploy and 24/7 support if you need it.

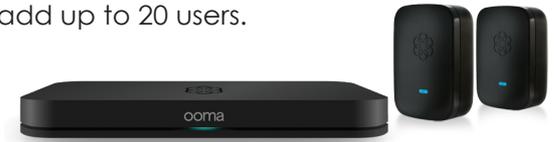

Easy do-it-yourself setup. No wires to deploy.

The system supports up to 20 users on and off-site.

Room to grow as your business expands.

Ooma Office gets your business up and running quickly with big business features and the option to add up to 20 users.

Each Ooma Office base station supports up to 5 analog desk phones.

Ooma Linx

Use the Ooma Linx to wirelessly connect additional telephone lines to your Ooma Office Base Station via DECT 6.0 technology.

Ooma Office Mobile App

Make and receive calls as if you were in the office with the free Ooma Office Mobile App.

FAQs

What do I need?

All you need is a high-speed Internet connection (cable or fiber-optic) and a regular phone.

Can I transfer my phone number?³

In most areas you can port your existing phone number to Ooma. Best of all, porting is free! You must maintain the current phone service until the porting process is completed, usually 1-2 weeks.

What about busy signals?

No busy signals ever! With Ooma Office you have virtually unlimited lines. There is no need for you to purchase additional lines for rollover!

Do you support 911 calls?⁴

Yes. Ooma collects your address when you activate online and uses this information for emergency response.

¹Ooma's business phone service does not include high-speed Internet or broadband service. ²Federal universal service charges, state and local taxes, fees & surcharges and regulatory and compliance fees are billed monthly and are subject to change. Unlimited calls are subject to normal business usage limitations, which may include charges for calls to certain non-residential numbers which impose abnormally high termination fees. See <http://www.ooma.com/smb/termsandconditions> for current usage limitations. International calls are billed per minute and must be prepaid. Directory assistance (411) calls are billed per call. To determine the specific charges in your area, go to <http://www.ooma.com/smb/rates>. Additional lines require a monthly service fee, applicable taxes and fees, and additional peripheral devices sold separately. ³Transfer of your existing phone number not available in all locations. The number transfer process takes approximately 10 business days from the time you confirm your transfer request. If you would like to transfer your existing phone number to Ooma, do not disconnect your phone service until the number transfer has been confirmed. ⁴Ooma E911 service operates differently from non-Internet 911 service. See <http://www.ooma.com/911> for details. Some alarms, faxes and other devices may not be compatible. Additional terms apply. See <http://www.ooma.com/smb/termsandconditions>. ⁵Conference server and internet fax available for an additional monthly fee.
